EXPERIENCE SUMMARY

I am a mechanical engineer with extensive knowledge in all automation processes including production & manufacturing industry, Material handling systems, Baggage handling systems etc. hands on experience in planning, cost estimation, cost control methods, annual budget, asset management, production & plant maintenance.

Professional with clear objectives in work, more knowledge in setting task oriented output. Handled/controlled total plant operations & machine maintenance. Handled high volume of production of juice & beverage manufacturing. Proven in business operations driven to manage costs & establish mutually beneficial relationships with business partners & various related channels.

Competent, diligent, and results oriented professional, offering experience across store management, product management, manpower planning, sales, logistics management, supply chain management. Proficient in product development of different flavored juices, quality control, Production processes and customer service.

Dexterity in formulating and implementing plant operations & cost control policies to get optimum output. Proven track record in cost cutting in manpower, machine maintenance & plant modifications. Knowledge in feasibility study on plant improvements & possibility of new line in existing plant.

Excellent time management skills with proven ability to work accurately and quickly prioritize, effective team leader, trainer, and motivator with excellent verbal and written communication skills.

CORE COMPETENCIES:

- ♣ Tally ERP09 & CAFM (Maximo)
- ♣ HACCP
- ♣ Installation & Commissioning
- ♣ Quality Assurance
- ♣ Asset management & maintenance
- ♣ Store & Purchase Management
- ♣ Project Management Process
- ♣ Strong Interpersonal Skills
- ♣ QMS Policies – ISO 22000, ISO 14001 & OHSAS 18001

LANGUAGES KNOWN

English, Hindi, Malayalam & Tamil.

TRAININGS & IT SKILLS :-

- ♣ First aider & Fire Fighting Course
- ♣ Microsoft 365 plus & outlook express

EDUCATION :-

DIPLOMA IN MECHANICAL ENGINEERING

from Government Polytechnic College, Kerala.

LEADERSHIP & MANAGEMENT TRAINING

from Zabeel International Institute, Dubai.

WORK HISTORY

July 2020 -
Till now

Maaza Juice International (Dubai) **Production & Maintenance Manager**

- Planning, organizing, directing and controlling optimum day-to-day operations with minimum wastages.
- Increased production efficiencies from machines by applying new progressive method in plant assets, reduced unnecessary costs in plant operations and improved quality standards.
- Responsible for production output, product quality and on-time shipping.
- Managed all the operations & production of different juice flavors & sizes.
- Good Knowledge about Supply chain management & Inventory control.
- Good Knowledge about ERP system like SAP, Tally ERP09 etc.
- Hands on experience in material flow & all procedures related to Inventory.
- Conducted feasibility study to improve the productivity from existing lines & succeeded.
- Worked on production overhead expenses by conducting cost calculations & achieved the cost reduction from operations & manpower allocation.
- Handled the contract fillers & experience in Tetrapak, carbonated & energy drink manufacturing.
- Allocated resources effectively and utilized all assets to run in optimal results & scheduled monthly based production Plan as per market forecasting.
- Monitored the operations, asset/equipments performances and carried out the corrective actions as per the analysis.
- Maintained relationship with workgroup and recruited, managed and developed plant staff.

Nov 2008 -
June 2020

Siemens Middle East LLC (Dubai Airport) **Maintenance Engineer**

- Handled all type of preventive & annual maintenance of the Conveyors & material handling Equipments.
- Controlled, monitored & mentored the technical teams, including lead technicians & technicians.
- Experience in installation of conveyors, heavy lifts, conveyor belts, chains, gearboxes etc.
- Designed mechanical tools to check the wear & tear of the components & increased machine efficiency.
- Good Knowledge about all electrical systems, specifically about Siemens PLC, starters & Devices.
- Knowledge about all mechanical drawings & clear idea about machine parts of the mechanical equipments.

May 2007 -
Oct 2008

Emirates Sky Cargo (Dubai Airport) **Shift Leader-Operations & Maintenance**

- Solid foundational knowledge of PLC based controls systems and mechanical components.
- Good knowledge about the Safety pro-active measures & LOTO procedures.
- Conducted Training & Development of Technical Team with power point presentations.
- Handled & managed the test run of new material handling system & stabilized successfully.
- Well knowledge in computerized maintenance management system (CMMS), MAXIMO & SCADA.

April 2004 -
April 2007

COCA COLA –Al Ahlia Gulf Line Co (Al Ain) **Maintenance Team Leader**

- Handled all maintenance activities & troubleshooting of plant machines.
- Executed & handled PPM schedules as per the machine running hours.
- Maximized the availability of machinery and utilities as per OEE norms.
- Performed root cause analysis to eliminate issues in machines.
- Well knowledge about the ISO 9001-2004, ISO 14001 & OHSAS 18001.

Nov 2000 -
April 2004

PEPSI cola India Pvt Ltd (Palakkad, India) **Maintenance Team Leader**

- Experience in maintenance of bottling machines & its troubleshooting.
- Worked in system development team to minimize the breakdown of machines
- Conducted Technical trainings & Presentations to the Line technicians
- Knowledge in troubleshooting & maintenance of Filler, Labeller, Blow moulder Air compressors, refrigeration compressors, Shrink wrappers & De –palletizers.
- Reduced Machine Change-over time & increased productivity.
