Dubai, UAE.

CAREER OBJECTIVE:

Seeking a position of QA/QC Engineer with a reputed organization where my potential matches the organizational growth and contributes for the achievement of my career with rich skills and hard work.

EXPERIENCE:

- **QA/QC Inspector**, Usui Susira International Private Limited, Chennai, India. (September 2022 - January 2024).

Job Profile as QA/QC Inspector

- Carried out the receiving inspection of raw materials.
- Verifying the received raw materials against the purchase order.
- Maintaining the records of various equipment in the workshop, such as snap gauges, plug gauges, calipers, micrometers etc. and update the calibration status as required.
- Recording the data of the product after every process.
- Inspecting and ensuring the product meets the customer requirements after every process.
- Conducting various testing methods such as hardness and roundness assessments.
- Identifying product defects.
- Analyzing the defects and taking corrective actions.
- Providing training to the production team to work with SOPs.
- Supporting process improvements.
- Carried out the final inspection of the product prior to delivery.
- Verifying that all the documents, drawings, etc., from the clients were in line with the product requirements.
- Performed all internal and external audits.
- Monitoring the process flow using control charts (SPCC).
- Ensuring product cleanliness.
- Inspecting the product using CMM.
- Maintaining all quality related documents.
- Implementing new process.

ACHEIVEMENTS:

- Earned accolades, including recognition from TOYOTA and ASHOK LEYLAND, for outstanding performance.
- Hosted a visit from TOYOTA customers, along with their other suppliers, to showcase our exemplary processes and product manufacturing.

ACADEMIC QUALIFICATION:

- **B.E in Mechanical Engineering**, Anna University, Chennai, India. (2018-2022)

ACADEMIC PROJECTS:

- Process Parameter Optimization of Manual Arc Welding on Mild Steel Using Taguchi Method.
- Design and Fabrication of Drilling Machine Using Worm Gear Arrangement.

TECHNICAL QUALIFICATION:

- AutoCAD
- Excel
- MS Office
- CMM
- PowerPoint
- Millipore
- QC Tools
- Root Cause Analysis
