### EDUCATION

#### BSc. Chemistry

MG University 2015 - 2018

### SKILLS

- Quality assurance
- Analytical skills
- Laboratory techniques
- Data analysis
- Documentation
- Problem Solving

### PROJECT

- Room Temperature synthesis of Tetraammine Copper (II) Sulphate
- Fractional Distillation of Liquid Mixtures – Separating ethanol and water, based on boiling points.
- Optimize the separation of a specific mixture using HPLC.

### COMPUTER PROFICIENCY AND CERTIFICATION COURSE

- MS Word
- MS Excel
- MS Power Point

### LANGUAGE

- English
- Hindi
- Malayalam
- Tamil

### PROFILE

Quality Control Chemist with over 5 years' experience in chemistry field. Expertise in Chemical analysis, Validation and problem solving. Skilled in laboratory safety and regulatory compliance.

### WORK EXPERIENCE

#### National Institute for Rubber Training (NIRT), Kottayam, INDIA

2020 – 2022

##### Quality Control Chemist.

- Maintained a safe and clean laboratory environment by following set procedures, rules and regulations.
- Developed and documented standard operating procedures (SOPs) for QC processes
- Performed laboratory investigations of out-of-specification (OOS) results and customer complaints.

2022 - 2025

#### Neerakkal Latex (P) Ltd.

##### Quality Control Chemist.

- Conducting the Physical Testing Like, Viscosity Test, Mechanical Stability Test (MTC) and Durability Test.
- Analyzing the Ash Content, Nitrogen Content and Plasticity of the Of the Latex.
- Ensured accuracy of data by conducting systematic and thorough quality control checks and reviews.

### EXTRA CERTIFICATES

- Successfully cleared the assessment for role of lab chemist-incoming raw material testing under NSDC held at RTI Kottayam.
- Diploma in soil and water analysis.
- Certificate course in soil and water analysis
