Sowmya Nivasa, Subramanyanagara, Light House
HALEANGADI - 574146, MANGALORE, (D.K)
Karnataka, INDIA

Date of Birth: 03-05-1981

To secure a Manager position leveraging extensive experience in plant operations, tank farm, oil movement, Into plane refueling and logistics to ensure timely and efficient fuel distribution. Proven ability to manage inventory, coordinate deliveries, and prioritize tasks to meet customer needs while maximizing resource utilization and adhering to safety protocols.

Professional Summary

- 1. Supervised daily operations of fuel storage terminals, Into-plane refueling, Plant operations like ensuring safe and efficient feed, receipt, storage, and export of petroleum products.
- 2. Managed logistics for fuel distribution, into-plane refueling, coordinating with suppliers, transportation companies, and customers to ensure timely deliveries.
- 3. Monitored product inventory levels, conducted quality control analysis, and implemented safety protocols to maintain product integrity and regulatory compliance.
- 4. Experienced in managing teams, conducting training, and implementing safety procedures to ensure operational efficiency and workplace safety.
- 5. Proficient in using industry-standard software and systems for inventory management, order processing, and logistics coordination.
- 6. Led operational Activities of CDU including monitoring critical process parameters and analyzing trends.
- 7. Involved in mega shutdown and pre-commissioning of projects & alarm rationalization.
- 8. Handled emergencies like power dips and equipment trips to ensure smooth operations.

Soft Skills

- Communication
- Teamwork
- Problem-solving
- Time management
- Adaptability
- Attention to detail
- Leadership
- Safety conscious
- Process oriented
- Decision-making
- Aviation fuel handling

Technical Skills

- Tank Farm Operations
- Oil Movement
- Inventory Management
- Logistics Coordination
- Safety Procedures
- Quality Control
- Fuel Distribution
- Terminal Management
- Product Sampling
- Pipeline Operations

Career Timeline

- Jul 2023 - Present: Shift Supervisor operations
Dangote Petrochemicals & Refinery Ltd (Lekki, Nigeria)
- Feb 2018 - Apr 2023: Oil Movement Supervisor
Woqod Qatar Fuel
- Jan 2012 - Jan 2018: Senior Oil Movement Operator
Woqod Qatar Fuel
- Dec 2010 - Dec 2011: Junior Manager (O&M)
RUCHI INFRASTRUCTURE LTD
- Mar 2007 - Nov 2010: Depot Manager (O & M) DR Congo & Sudan
Fuel Depot
TRISTAR GROUP
- Jun 2003 - Mar 2007: Junior Engineer (Operation & maintenance)
INDIAN MOLASSES COMPANY

Work Experience

- Jul 2023 - Present: Shift Supervisor operations
Dangote Petrochemicals & Refinery Ltd (Lekki, Nigeria) (Lekki, Nigeria)

Responsible for overseeing the safe and efficient operation of the CDU, ensuring compliance with regulations, and managing the unit's personnel and resources.

Core Competencies

- Operations Management
- Logistics and Distribution
- Safety and Compliance
- Inventory Control and Quality Assurance
- Team Leadership and Supervision

Certifications

- Authorised Gas Tester certification (2021)
- Fire and safety training
- Trained in multi-product pipeline operation
- Trained with refueller operations and maintenance
- JET-A1 refuelling operations
- First aid training course
- FM200 fire suppression on system training
- EMS-IT-Awareness Training Woqod Qatar

Supervise the unloading and loading of hydrocarbons, including LGO, Propane, Butane, and HFO, ensuring the safe and efficient execution of operations for refinery unit start-ups.

Key Responsibilities:

Operational Oversight:

Supervising and directing the work of CDU operators, ensuring adherence to operating procedures and safety protocols.

Process Monitoring and Control:

Monitoring key process parameters, identifying potential issues, and taking corrective actions to maintain optimal unit performance.

Safety Management:

Ensuring a safe working environment by enforcing safety procedures, conducting safety inspections, and investigating incidents.

Performance Optimization:

Identifying opportunities for process improvement and efficiency gains, collaborating with engineers to implement changes.

Maintenance Coordination:

Coordinating with maintenance personnel to ensure equipment reliability and minimize downtime.

Documentation and Reporting:

Maintaining accurate records of operations, incidents, and maintenance activities.

Problem Solving:

Addressing operational issues, troubleshooting equipment malfunctions, and escalating problems as needed.

Compliance:

Ensuring compliance with all relevant regulations and standards.

Training and Development:

Providing training and mentoring to operators, ensuring they have the skills and knowledge to perform their duties safely and effectively.

Team Leadership:

- Motivating and leading the CDU team, fostering a positive and collaborative work environment.

Achievements:

- Successfully managed tank farm operations, ensuring the timely and efficient supply of hydrocarbons for refinery unit start-ups like commissioning of worlds largest single train crude distillation unit.
- Maintained an impeccable safety record by implementing and enforcing strict safety protocols and procedures.

Feb 2018 - Apr 2023

Oil Movement Supervisor

Woqod Qatar Fuel (Qatar, Doha)

Responsible for overseeing the safe and efficient movement of petroleum products at the Doha Depot/Q-Jet , ensuring adherence to company procedures, safety regulations, and industry best practices.

- Supervise oil movement activities at Doha Depot & Q-Jet tankfarm including the receipt, storage, Into-plane refueling and export of petroleum products (Jet-A1, gasoline, diesel, and fuel oil), ensuring adherence to company procedures and safety standards.
- Conducted regular inspections of equipment and facilities, identified potential hazards, and implemented corrective actions to maintain a safe and efficient working environment.
- Coordinated with Qatar Petroleum Refinery for daily receipt and loading plans, ensuring the smooth and timely transfer of petroleum products via multi-product pipelines.
- Optimized manpower utilization and streamlined work processes, resulting in increased operational efficiency and reduced overhead costs.
- Trained and supervised a team of oil movement operators, providing guidance and support to enhance their skills and performance.

Achievements:

- Maintained a consistent record of zero spills or safety incidents by implementing and enforcing strict safety protocols.

- **Aviation Fuel Quality-Specification Test Methods & Supply chain**
- **Authorized Gas Tester Approved**
- **Confined space entry training**
- **Fire Awareness Course**
- **Certified Basic H2S/BA, Fire Warden Training, certified First Aider training**
- **Trained in aviation fuel handling and quality assurance by EI/JIG standard 1530**

Education

- **S.S.L.C (10th STD)**
Sri Narayan Guru English Medium School
- **P.U.C (12th STD, Commerce, UAE Attestation done)**
Gokarnanatheshwara P.U College
- **Diploma in Mechanical Engineering (2003, Qatar attestation done)**
Sri Niranjana Swamy Polytechnic - Bajpe, Mangalore, Karnataka
- **PG Diploma in Oil & Gas Technology**
PACS Global, Mangalore, Mangalore kankanady
- **Associated Graduate business Management in Logistics Supply Chain**
IAPL institute India, Ahmedabad india
Jan 2025

Hobbies

Travel Hiking Photography Reading

- Successfully managed the depot's oil movement operations, ensuring the timely and efficient delivery of petroleum products to customers.

Jan 2012 - Jan 2018

Senior Oil Movement Operator **Woqod Qatar Fuel (Qatar, Doha)**

Responsible for the day to day operation of the tank farm, ensuring the accurate measurement, quality control, and safe handling of petroleum products.

- Performed daily drainage of storage tanks, ensuring the accurate measurement and recording of product levels for inventory management purposes.
- Conducted quality control analysis on petroleum products, ensuring adherence to required specifications and maintaining product integrity.
- Managed daily storage tank inventory, performing DIP and stock calculations to track product levels and ensure accurate accounting.
- Oversaw the loading and unloading of petroleum products from tank trucks, ensuring the safe and efficient transfer of products.
- Performed regular inspections of tanks, pipelines, and valves, identifying and reporting any maintenance needs to prevent operational disruptions.

Achievements:

- Consistently maintained accurate inventory records, contributing to efficient supply chain management and reducing product losses.
- Played a key role in maintaining the operational integrity of the tank farm by diligently performing preventative maintenance tasks and promptly reporting any issues.

Dec 2010 - Dec 2011

Junior Manager (O&M) **RUCHI INFRASTRUCTURE LTD (NEW MANGALORE PORT, INDIA)**

Responsible for the overall operations and maintenance of an edible oil storage terminal, ensuring the efficient and safe handling of products and compliance with industry regulations.

- Managed the daily operations of an edible oil storage terminal at the New Mangalore Port, overseeing product receipt, storage, loading/delivery, and shipment handling.
- Coordinated with logistics providers, vessel vendors, customs officials, port authorities, and terminal operators to ensure the smooth and timely movement of cargo.
- Supervised and coordinated shift operations and manpower allocation to ensure efficient terminal operations and timely completion of tasks.
- Implemented and maintained safety procedures and protocols to ensure a safe working environment for all personnel.

Achievements:

- Successfully managed the terminal's operations, ensuring the timely and efficient receipt, storage, and delivery of edible oil products.
- Maintained strong relationships with stakeholders, including logistics providers, vendors, and port authorities, to ensure seamless operations.

Mar 2007 - Nov 2010

Depot Manager (O & M) DR Congo & Sudan Fuel Depot **TRISTAR GROUP (DR Congo & Sudan)**

Responsible for the overall management and operation of 24 fuel storage depots in Sudan, ensuring the safe and efficient supply of fuel and POL products to the United Nations mission. Transport aviation fuel between terminals, storage facilities, and aircraft, ensuring safe loading and unloading. Provide ground support services for general aviation aircraft, including fueling, parking, and other services, ensuring a safe and efficient Operations.

- Managed the daily operations of 24 fuel storage depots across Sudan, ensuring the safe and efficient receipt, storage, and distribution of fuel and POL products for the United Nations mission.
- Oversaw the receipt, storage, and dispensing of aviation turbine fuel (ATF) to UN aircraft, utilizing mobile refuelers and adhering to strict safety and quality control standards.

- Conducted quality control tests on aviation fuel, including sampling, testing, and rebatching, to ensure compliance with specifications.
- Performed operational maintenance and pre-maintenance checks on a range of fuel handling equipment, including tanker trucks, refuelers, pumps, and storage tanks, to ensure operational reliability.
- Implemented and maintained a robust safety culture, conducting safety meetings, fire drills, and emergency preparedness exercises to ensure the well-being of personnel and compliance with UN safety protocols.
- Oversee all terminal operations, including fuel handling, storage, and distribution, manage personnel, and ensure compliance with regulations. Leadership, management, and knowledge of aviation fuel handling and regulations.
- Transport aviation fuel between terminals, storage facilities, and aircraft, ensuring safe loading and unloading.

Key Skills: Safe driving practices, knowledge of fuel handling procedures, and adherence to safety regulations.

Knowledge of aviation procedures, customer service skills, and ability to operate ground support equipment.

Achievements:

- Successfully managed the logistics and distribution of fuel and POL products to support the United Nations mission in Sudan, ensuring the uninterrupted operation of critical activities.
- Maintained an exemplary safety record across all managed fuel depots, implementing stringent safety procedures and protocols.

Jun 2003 - Mar 2007

Junior Engineer (Operation & maintenance)

INDIAN MOLASSES COMPANY (Mangalore Jetty Terminal, INDIA)

Responsible for the safe and efficient operation and maintenance of a bulk liquid storage terminal, handling petroleum products, edible oils, and other liquid cargo.

- Supervised port and jetty operations, including the loading and discharging of petroleum products and edible oils from ships, ensuring compliance with safety regulations and standard operating procedures.
- Coordinated with surveyors, customers, ship masters, agents, and port authorities to ensure the smooth and timely berthing, loading, and departure of vessels.
- Managed tank farm operations, including the receipt, storage, and transfer of petroleum products, ensuring the accurate measurement of product levels and maintaining inventory records.
- Conducted regular inspections and maintenance of storage tanks, pipelines, valves, and other terminal equipment to ensure operational integrity and prevent leaks or spills.
- Implemented and maintained safety procedures and protocols at the terminal, conducting safety meetings and drills to promote a safe working environment for all personnel.

Achievements:

- Successfully managed the loading and unloading of thousands of tons of petroleum products and edible oils, ensuring on-time delivery and customer satisfaction.
- Maintained a spotless safety record throughout tenure by implementing and enforcing rigorous safety protocols and procedures.
